Hi!

New message from site dev45.pharmacomstore.org.

E-mail adress: jodiquero@gmail.com

Message: 100-100-100

Майлы через контакт форму опять приходят от "contacts@pharmacomstore.net" а должны как это было раньше - от майла клиента который он ввёл в контакт форме. В данном случае это "jodiquero@gmail.com." Короче, проблема в том что они не могут отвечать на письма клиентов сразу-же, а нужно сперва ввести майл клиента в графе "кому"
